

Scribe AGM Report February 2026

12 months ago we unveiled the new format 'Spark' online magazine agreed by the committee replacing the existing SE Newsletter. I am pleased to report that feedback has been excellent with the new layout well received and 4 seasonal issues produced in 2025. These issues are all available to read on the centre's website.

With far more photographic content, interesting articles and contributions from Natters and Wanderers 'Spark' has been a vital platform for reaching members together with other social media platforms and of course the SE Centre website.

Above are the 4 issues of 2025. Looking forward the 2026 the plan is to continue with the same format and I am pleased to advise Tim Morris our Chairman will continue as assistant editor making a valuable contribution.

Safety Fast continues also to be an important communication platform via the South East Centre notes section. Although limited to only 300 words Ray Ruffels and I continued to write input for Safety Fast which also has the benefit of reaching the World wide membership. With copy deadlines of a month ahead we try and focus on main events coverage but this is not always the case bringing in local input if space. Ray and I are willing to continue in this role in 2026 .

William Opie
SE Centre Scribe and Committee member.
